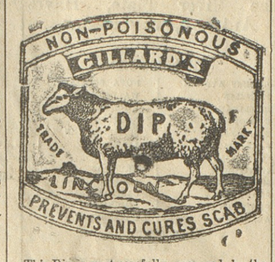
GILLARD'S SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with

COLD WATER

Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gillard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gillard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy.'

FREE LANDS.

It is really refreshing to see the earnestness with which Dr. Irigoyen, our Minister of Interior, has taken up the question of colonies and immigration.

Five decrees and notes from the Minister in one day on the subject is such an instance of Ministerial zeal that not even the oldest Government clerk can understand what change has come over the spirit of the Interior, or what it all means. Can it be that Dr. Bernardo means to hand over the whole Gran Chaco to the Italians, or Patagonia to the Welshmen? Or does H.E. mean turning the Misiones into another Cuba and peopling the River Plate garden with mere Gallegos?

We attribute this new movement in the office of the Interior to the visit last week of two Welshmen, one Scotchman and one Irishman in a sort of commission to the Minister, to ask H E. what land he would give 10,000 fresh Welsh colonists. Since that memorable visit everything has been turned upside down in that section of the Government House. Dr. Irigoyen evidently discovered that all was wrong in the emigration and colonial line—the whole affair a sham. 600 Welshmen smoking their pipes on the Chubut seashore, waiting for the Government to give them land; the Comisario of the colony here in town; the wheat crop lost last year for want of a dam, and, in one word, everything gone wrong, while ten thousand more Welshmen offer to come out to set us right.

Deep as is the obligation of the country to Dr. Irigoyen for settling the Chilian question, it is as nothing if he reform the abuses that stifle immigration and deprive us of the farmers and ploughmen of the north of Europe.

Seven hundred thousand immigrants landed last year in the States. What a tremendous lesson to our public men. We certainly might have one half of that emigration if we had the right men, the right lands the right concessions, and the right colonies for the immigration; but of all the hollow farces in this country the free farm, free lands, and free immigration is the greatest. We have millions of acres lying idle, whilst the surplus population of Europe is asking for land to make their money on.

Let any one read over Dr Irigoyen's notes to the Minister of Hacienda, chief Engineers, colonies, etc. and he will gather at a glance into what an Augean mess all this most vital of matters has lapsed.

Heaven bless you Mr Minister if you put an end to the sham that has been going on so long in this country, under the head of colonies, free lands, immigration, etc.

The following is a list of the Minister notes—

1st. To Minister of Hacienda, asking what has become of accounts of colonies, lands, etc.

2nd. To chief of colonies and land office, demanding fullest statistics.

3rd. To chief of National engineers asking for plans etc.

4th. To the various governors, asking what on earth they are doing about colonies.

5th. To the government escribano, asking for list of contracts, leases, concessions, etc.

Let us hope that such a rattling fire of government decrees on one subject will lead to something and that Dr Irigoyen will at last succeed in persuading the public that the Argentine government is determined to foment immigration.

MUNICIPAL DEBT.

IMMEDIATE STEPS TO PAY OFF.

Yesterday, although there was not a quorum of Municipal members present, a very important meeting was held, the Lord Mayor and ten Municipals present. Respecting the Electric Light propositions, by Messrs Veyra and others, we may state that there is not the slightest chance of any of them being passed. The Municipality will do nothing in the matter for at least a year.

Respecting the Municipal Debt and the unpaid coupons on the Municipal Bonds, the Board has at last decided to take the most energetic steps to pay off everything, and as the March coupons are now falling due and the debt each day increasing, it wasdecided to name a special committee, composed of Messrs. Wals, Rodriguez and Mulhall, to wait on the Minister of the Interior and lay before H.E. a proposal which only requires the sanction of the National Government to be carried out and pay every debt due by the Corporation.

To-day at one o'clock the committee named will wait upon Dr Irigoyen, and we do hope that the Minister will second the views of the Municipality and carry out the scheme which is already approved of by the Board.

LONDON LETTER.

(*From our Own Correspondent*)

THE UNION GÉNÉRALE

Jan. 31st, 1882

The purliens of the Bank of England were crowded this morning by anxious merchants expecting the rate to be put up to 7 per cent, although it was raised only a few hours ago to 6 per cent. There was, however, no alteration declared, but there is no knowing whether the rate will not gradually rise to 9 or 10 per cent as it did in 1873 after the panic in Vienna.

It was generally supposed that the suspension of the Union Générale would create a serious panic. Twenty four hours have elapsed since the announcement of the failure, and we have yet heard nothing very alarming from Paris or Vienna. The settlement at Paris only begins to-morrow, and we have certainly not seen the worst of the crisis.

The amount of the capital involved in the fall of the Union Générale is comparatively small; but it was the great speculative pubble of the day and if it could have been tided held up, many others of the kind might have been over. It had also a particular interest as being what is called a 'Catholic Bank;' the principal investors being dignitaries of the Church in Rome and in France, or high personages of the Clerical and Legitimist party. 'The King' himself is said to be a shareholder as well as some of the Italian connections of the Pope. So lately as November last when the meeting was held which declared such grand profits but no tangible dividends the Clericals and Legitimists were congratulating themselves on having at last wedded their cause to a powerful modern agent—Finance, represented by M. Bontoux. The syndicate of bankers who lately proposed to carry the concern over its difficulties have evidently discovered that its position was beyond redemption. Its capital was originally only one million sterling; but it has gradually been raised by further issues at a premium, on which the bank must have lived. In November 1881 the capital was raised nominally to 6 millions, but the date of that issue will fortunately arrive subsequent to the failure. The shares were £20 on which £5 had been paid. It was arranged that the new shares should be registered in the names of the original shareholders, and that the £15 remaining should be paid out of the profits in lieu of dividends. The profits were represented to amount to £2,460,000; a further sum of 3 millions sterling was required. Hence the issue to that extent in November 1881. Notwithstanding the premium of £15 a share, M. Bontoux calculated on a reserve fund of £720,000, so that in three years under his excellent administration the company, founded in 1878, must have made £3,700,000! It is needless to add that these profits were paper profits. Amongst the assets of the company are 23,500 of its own shares bought in at a high premium, and a mass of Austrian mining shares, familiarly known as 'Alpines,' which will leave a loss of 200 frs a share. M. Bontoux was by profession an engineer, and had been engaged in mining and railway enterprises in Austria and brought his Austrian connections to the Union Generale. One of its first creations was the Austrian Länder Bank, and with the cooperation of the Vienna Bankverein it launched the Hungarian Länder Bank. It is said that so fast did deposits increase in the Union Generale that from 8 millions of francs in 1878 they had reached 100 millions in Dec. 1881. It will be interesting to know what has become of this money? It cannot all have been employed in buying up the company's own shares, even at 2 or 300 per cent premium. As usual in these cases the suspension of the company is announced to be only temporary!

The President of the Union Generale was the Duc Decazes. Connected with the Bank were also the Marquis de Beauvoir, his brother-in-law Mr Emanuel d'Harcourt, the Conte Pierre de Castellane and the Marquis d'Abrac. Prince Victor de Broglie, a son of the Duc de Broglie, was a director. Truly a goodly company, in the hands of a schemer, who little more than two months ago said at the November meeting, 'I protest emphatically against the idea that I am putting the cross on our doors to put money into our tills.' We possess the funds we state. The profits we declare really exist. We have half a milliard at our disposal, and our operations extend from Brazil to Russia.'

It was in the midst of these financial villainies that M. Gambetta resigned, and the true version of his resignation is not yet made public. It is at the express instance of the Rothschilds that M. Leon Say has accepted the portfolio of finance under M. de Freycinet. M. Say is as 'un homme,' and as 'un economiste' respectable: he is of the old *Debats* school and is what is called 'a safe man.' He is a thorough free trader, and he will not convert 5 per cents., or 4½ per cents., and he sets his face against the purchase of railways or anything else by the State. His chief, M. de Freycinet, is, on the other hand, full of grand schemes of public works, executed by loans from the public purse. The Minister of Commerce, M. Tirard, is an ardent protectionist.

Already there has been a serious altercation in the half-formed Cabinet in regard to the Treaty of Commerce with England, which M. Say, insists on settling on the basis offered by the Gambetta Cabinet. In the meantime M. Gambetta has succeeded in postponing the expiring of the present treaty from February 8th to March 31st with the option of extending the time until May 15th. To all appearances M. Gambetta and the French people accept the situation very philosophically; as for Gambetta, he is glad to be out of it. His majority in the Chambers was not strong enough for him to work with against the practised intriguers of the Centre and Left Centre. He has undoubtedly figured badly and lost prestige, but he is not done with. His resignation has rather calmed European politics, but they possess, independently of France, combustible matter of their own. The Danish Monarch threatens his radical Parliament with passing the estimates required by royal ordinance if it does not pass the budget. The German Parliament, more generous, has voted the budget and is quietly prorogued. The war in Herzegovina is growing in dimensions, and an ill feeling is arising between Austria and Russia.

I send separately the latest resolutions in regard to Mr. Blaine's pan-American notions.

We have to thank Mr V G Aguilera for a copy of his 'Nuevo Sarmiento' a cleverly arranged method of learning to read and write simultaneously, and we hope to see it adopted in all the elementary schools, public and private.

Dear Sir,

In reply to yours, asking the value of land in this province for the cultivation of the sugar cane and for estancia land, I can only state that no such large tract as you mention is to be had except in the 'llanos' between here and Cordova, where it is mostly scrub, and the want of water makes it little fit for cultivation, the inhabitants and the few and small 'poblaciones' which exist in these tracts depending entirely on rain water, which is caught in 'refresas,' for their existence.

Cattle thrive well, but it is only in the rainy season that agriculture gives any good result. Around here the small streams of water are barely sufficient to irrigate the few patches of land already under cultivation.

Mining is going ahead here fast, and some very rich 'alcances' have lately been made, the output during the past year being very considerable.

I remain,
Yours truly,
F. S. B.

EDITOR'S TABLE

Things in general were anything but lively yesterday morning, although they improved as the day wore on. The British residents were angry with Havas and passed a vote of want of confidence, for his not having a wire with particulars of the attack on Her Majesty. The Stump business was still on the tapis, the principal novelty being that Mr Marechale deposed to some purchase of an estancia for his account while in Europe by Stump, for a round million paper, but on arriving here and interviewing the seller, he found the whole thing was complicated. Mr Stump was liberated yesterday. Mr Carreaux has filed a petition to declare Mr Marechale bankrupt.

The new railway station at the Once is at last under weigh, at least the navvies are now levelling the patch of ground lately filled in opposite Decoud's Plaza, and on this a wooden station will be built. We hope the Directors wont dream of lighting the new station by electricity.

The epicurean novelty of the day is the 'Lola' biscuit, just 'launched' by the renowned firm of Bagley and Co. It is a most appetising delicacy, and half a glass of sherry goes as far with it as a whole one with any other kind of biscuit, which is an important consideration with such high duties on wine, and drinkable sherry so lamentably scarce and dear. The 'Lola' biscuit is a decided hit.

We feel great pleasure in saluting Profesor Gould, the distinguished Director of the Cordoba Observatory, who is at present in the metropolis. We also beg to thank him for sending us vol. 11 of the 'Observatario Nacional Argentino,' a monumental work to which we referred some time ago, and which has added largely to Dr Gould's already world-wide fame as one of the greatest of living astronomers.

There is a mild rumpus reflected in our Belgrano contemporary about the intention of the Municipality there to make everybody there take the new 'aguas corrientes,' whether he wants them or not. The measure seems a trifle arbitrary.

The *Mundo Artistico* of this week publishes a very nice portrait of the great composer Meyerbeer.

Another rumpus has sprung up in connection with the Exhibition. It appears that the 'musical jury' to decide on the prizes was composed of master tradesmen who dont know 'St. Patrick's Day' from 'Il balen del suo sorriso!' 'Oh ever thus from childhood's hour!' It's awfully funny,

Stump's wonderful dog was as much spoken of yesterday as the hero himself. He owns a dog so attached to him that, no matter where he goes, the faithful animal finds him out and rejoins him. On one occasion he left the dog in Colonia, B. O, and, 48 hours after his arrival here, the animal found its way to his lodging. Up to the present it is not known how the dog got across the river. The police heard of this wonderful dog and felt sure of catching Stump through its affection for him. They went to his house in Calle Piedad where they found the dog tied by a strong iron chain, Stump being, evidently, afraid that the animal would follow him; they took off the chain and opened the street door, expecting the dog to bound out. Not so, however; the brute knew what they were at, growled savagely at them, walked leisurely to the street door, looked up and down with a knowing air, gave the canine equivalent for a chuckle, and walked back into the house! Several further attempts were made to induce him to go out, but all in vain, and the officers of the law finally gave it up. This is certainly very wonderful, but there are many equally remarkable instances on record of the fidelity and sagacity of the canine race.

The tramway hangs fire in the good city of Tucuman. The 'empresarios' have asked for another six months' 'prorogа' before commencing the works.

There is nothing fresh from Montevideo except the names of President Santos's new Cabinet Things are delightfully quiet down there, and many people expect that Santos will prove a good President, keep order strictly, and put the public accounts in proper trim. This is all B O requires to go ahead; its trade is steadily increasing, as shown by the Customs' returns.

We snip the following from an exchange, for our fair readers' benefit:—"Ladies' slippers are now done in the old tapestry stitch, with their dainty portraits of children and their romantic sceneries, such as a Spanish grandee playing the guitar under the balcony of his lady's love. The fact is, nothing is now too fantastic for fashion. Walking-sticks for ladies are all the rage again, and, taken in conjunction with the tight dresses and Newmarket coats affected by the fair ones, the back view of a lady at a short distance is decidedly delusory.

Eight days more remain to get the Exhibition ready. The Chilians have beaten all the other exhibitors; their section is finished and their exhibits are now being put in their places and everything will be ready on Saturday next.

We hear with great satisfaction that the next thing the energetic Minister of the Interior means to take in hand is a properly organised Fire Brigade for this city. It is indeed badly wanted. The blackened ruins in Calles Cangallo and Rivadavia are an unpleasant 'memento mori' of our shortcomings in this respect.

Save us! The Spanish papers report that an editor in the Peninsula has just been condemned to the galleys for *twelve* years, for some slips of his pen. Liberty of the Press is apparently not very flourishing under King Alfonso's rule.

The following 'mot' of M de Lesseps, the great Canal man, is rather good:—"It is said by a New York paper when Lesseps was in that city, advocating the construction of the Panama Canal, the opponents of the undertaking urged against it the Monroe doctrine. The veteran engineer listened patiently, smiled, and turning to his audience reminded them that the Monroe doctrine, like the will of Peter the Great, had never been admitted to probate in Europe."

Stump has been the means of adding a new word—'stumpificar'—to the Spanish language. The *Patria Argentina* reports that a foreign firm in Calle Rivadavia has been 'stumpificado' to the tune of 5000 pats.

There will be a great show of mineral waters from the Interior in the Exhibition; many of them are famous for their healing virtues, so the importation of Vichy and Carlsbad is not unlikely to decrease.

The trade in cattle and mares between Entre Rios and B. Oriental is increasing greatly, so much so that a number of new barges are being built in Salto to meet the increased traffic. Each barge will hold 250 head of cattle.

An incubator, the invention of Mr Stant C, E, and which is patented for years in England, will be on view at the Exhibition; it is guaranteed to hatch 300 chickens in three weeks. It will be exhibited by Mr Frederick Stearn. This incubator is a great favourite in England.

The four astronomical stations for having a peep at the Transit of Venus from the quarter of this globe will be in Buenos Aires, Montevideo, Patagones and Asuncion.

The *Tribuna* says that it is likely that Messrs Lacroze will next month obtain leave to lay down their proposed tramway from this city to Tandil. This will be the longest horse tramway in the world.

There was a scare in port on Sunday night owing to a vessel laden with posts from Paysandu taking fire, but the crew worked with such a will to extinguish it that they escaped with only one of the masts being slightly charred.

The Admiral Brown had two distinguished visitors yesterday—Governor Celman of Cordoba and Governor Bustos of Rioja. It was the first time that either trod the deck of a man of war.

A New York woman has at last found 'a man under the bed.' The search, since the days of Eve, having up to this time been fruitless, the fair sex will be encouraged by this discovery to still keep it up.

When is the most fashionable road in the country to be relieved of the disgrace and pestilential odour of the 'vasura' depot opposite the Lacroze Tramway Station? We bespeak our energetic Lord Mayor's attention to this matter as soon as possible.

The Diplomatic Corps and the French residents will be very sorry to lose Count Amelot de Chaillou who has been promoted to the French Legation in Rio, The Count is one of the most popular Ministers France has ever sent here, and we beg to offer him our congratulations on his well merited promotion.

What business man in Buenos Aires has not lunched as often as he has hairs on his head with Mr Luis Gruener, the courteous proprietor of the 'Bank Halle', opposite the Provincial Bank; his sandwiches and beer could not be beaten in town; but the Halle itself was an unutterably dingy old hole, and Mr Gruener has wisely removed to No. 95 Piedad, where, we have no doubt his numerous old customers will be glad to follow him. The new premises are in every way most comfortable and pleasant.

Yesterday was an enchanting day. The balm of Autumn is already tempering Summer's too ardent glow. The Plate has seldom passed a finer or healthier summer than that which will end on the 20th inst.

The reform of the Rural Society is now the great question of the day with estancieros. On the 15th, at 7½ p.m., a meeting will be held for this laudable purpose. One of the objects in view is to have the Rural Code reformed, and another is to oblige the Board of the Rural Society to 'look alive' and not remain fast asleep when measures affecting camp interests are before the public, as they did when the Marking Law was being discussed. All estancieros should put their shoulder to the wheel in this case, to infuse something like average energy into the highly respectable but too easy-going body that is supposed to represent their interests.

The news from Rioja is in some respects very distressing. Mining is looking up high, but rain came down so hard, about the middle of last month, on a little town called Guandacal, that it was half washed away, six persons were drowned and two fatally injured. All the crops were destroyed, and so terrible was the flood that the furniture was washed out of the houses and carried away. The rain was preceded by a terrific fall of hail, a phenomenon never before witnessed up there in the month of February.

His Holiness the Pope has sent to Father de Vila, the parish priest of Flores, a present of one of his own chalices, a beautiful silver vessel frequently used by the Sovereign Pontiff.

The pair of piebald horses which attracted such attention in the Corso during Carnival will be sent to the Exhibition. Everybody thought they had been painted for the festive occasion, but they were not; the beautiful spots are all nature's doing. The horses were given by King Humbert to Mr Guiallume, the circus proprietor, and sold, after his death, to Mr Boyer of this city.

They are frightened in Montevideo at our new Lottery here, and efforts are being made to allow the sale of Montevideo tickets here, those of Buenos Aires to be allowed sale there. The reciprocity in such case would be all on one side, as Buenos Aires is the main buyer of Montevidean Lottery tickets, but has lost faith in the fair play down there.

Significant! All the insurance companies in town have refused to insure a paper dollar on any exhibits at the Exposicion Continental. Oh! Gemini.

GAS v. ELECTRIC LIGHT; OR NATURAL v. THE ARTIFICIAL.

To the Editor of the *Standard*.

Dear Sir,

Gas has nothing to fear from its modern rival the Electric Light either as a light or heat-producer. With regard to the former, gas is a natural light, bearing complete analogy with solar illumination, our only and perfect terrestrial pattern, and which resulting from incandescent gases, possesses but few of the extra spectrum rays, which are so highly refrangible, numerous and destructive in the Electric Light.

The gas flame, unlike its rival, is easily controlled, unfraught with its dangers and inconveniences, and contains blue and yellow in agreeable proportions, whilst the intensely white flame of the electric arc, not alone shrivels up vegetation, but soon destroys theoptic nerve.

As a heat-producer, gas is and always will be, infinitely superior, not only on account of the difficulty of application of that from electricity, but from its serious loss of power by transmission and consequent very great expense.

The condensed lightning indeed, is in itself only an extra power of Nature, employed for the restoration of harmony amongst rebellious elements and not for the continual peaceful administration of its domain.

I am, dear Sir,
Yours truly,
P. *Progress*

National Bank Shares	124½

Some houses in the market continue to secure gold for June and July and the supply is superabundant. In fact it is the only means of getting rid of the specie, as holders cannot sell over par for cash or at a respectable premium for end of the month; thus they sell the gold on hand for June and July at 25.20. The market at the present moment needs little gold and much paper to pay for produce. The paper-money market, though not quite as tight as during the month of February, is yet far from easy and the scarcity of the circulating medium is being felt. To-day over $100,000 were sold at the ring and outside at usual prices, 25.05 for end of the month, and even this rate is not to be had easily; 25.20 for end of June and July. The sales only amounted to one-half of yesterday's operations, but the business is a very limited one, and there is no speculation whatever, since the present operations mere answer wants of the moment.

In Cedulas there appears to be a pause in the heavy speculation of last week; Series E does not command as much attention now in the market as before, and strange to say the horse looks already tired. Series A was sold at 100½, and the stock is very firm. In Series E plenty of sellers, and the market droops under the burden; about $130,000 sold at prices fluctuating between 86 and 86½. The market opened firm at 86¾, dropped to 86 and closed at 86⅝. Speculation in Series E has abated, since the large holders have sold out. In fact there was more done in National Bank Shares than in Cedulas. The President of the Mortgage Bank, Dr Llambi Campbell, is expected back from his trip to Entre Rios this week, and some new reforms are awaited in consequence. The issue of Series E continues every day and the stock is coming quickly on the market. Brokers on the Bolsa talk of buying the saltpetre fields of Patagonia, the sugar lands of Misiones, the mines of La Rioja, and the coffee plantations of the North with the Series E.

In National Bank Shares the situation is very drooping. Nobody thinks that the Italians will sell out, but prices nevertheless shook, as a well known broker stepped in and sold about 500 shares. The bulls see nothing therein, as they consider that at present that is only a small market for the shares outside the Syndicate. The stock does not sustain its former prices, and the drop has been gradual and pronounced. Many supposed that there were some hidden causes lurking in the fall, but it is not so. Rates opened at 126½ and dropped to 124½; the market closed at 124½ for end of the month.

The sales at the ring were as follows:—

Gold—
For March 31st 35,000 at 25.05
For June 30th 30,000 25.20
For July 31st 30,000 25.20

The new Provincial Capital was much discussed on Change, and it is stated that in the Governor's message the National jurisdiction is extended to Flores, Barracas al Sur and Belgrano. Many wonder at the probable conditions of this extension of the jurisdiction, should it be true.

The fine Allan S. S. Lucerne has arrived in Montevideo with dates from Europe to the 10th of February.

The latest news about Stump on Change is that he has been liberated and that Mr Marechal, M. and Mme. Caron and Dr Christiani are to be sued by Dr Don Juan Carlos, going on the plea of defamation of his client's character.

Much importance is attached to Minister Romero's refusal of 90 o/o for the Treasury Bills, and the market in general seems inclined to believe what we stated yesterday of paying the creditors of the Government with these bills; it is our opinion that no sooner than new Treasury Bills come on the market they will find their way to London, as has happened with all the other home debts.

Fifteen per cent was offered to-day by brokers to carry Cedulas and get the money out of Nat. Bank Shares; the business we believe was declined, but we mention it to show the push made by a circle against the Nat. Bank stock.

A rather more active business in gold on time is going on at present and chiefly outside of the Bolsa: some of the strongest houses are willing sellers, as in the high circles of commerce it is believed that all this year gold will be as it is at present, due to the increasing stringency that may become immensely severe if the Nat. Government pays the new bonds to the bank and withdraws from circulation 8 millions specie notes.

To-day there was a great push made in the Municipality to raise a loan and pay off everything; we give in another column some particulars, and if the Minister helps the board, the debts due to the bondholders, Gas Co, etc. will all be paid off by May 1st.

Mr Perkins, estanciero Chacabuco, was welcomed on Change; he reports the Lincoln lands in splendid condition and many new estancias going up.

We give in our Supplement sheet the chairman's speech in London at the meeting of the Southern Railway shareholders. The meeting voted unanimously a present of £1000 stg. to Mr Parish for his services out here, and we believe Mr Barker, the secretary, will also be presented with £500. Money well earned.

Within the last few days there have been very large purchases of wool, both here and in Montevideo by a leading export house, all to fill orders received from Europe; the wool markets on both sides of the Plate are at present extremely active.

7000 ar of wool arrived in the Once, only part of same sold. Business pretty dull in the Plaza. Good wools getting scarcer every day.

Exchange, little doing, rates 4²⁵/₃₂ drawers, 4²⁶/₃₂ takers.

We see posted in the Bolsa that Mr W. Leslie has Catalinas Mole shares to sell. Last operations in these shares were done at 805 m/s, when the Government sold 200 shares.

A leading German barraquero intends retiring from business and spending the remainder of his days in Europe.

We call attention to an advertisement for the sale of Mr Reid's fine mares in the Once.

The cargo of pitch pine ex Sappho has been sold at 10 reales m/c on board in the outer roads; also that ex Gordon at same rate and conditions.

At afterhours some small sales in gold were effected at 25.05 for cash; but the business in question was very small. In Cedulas of Series E very little done; the market is weak and falling. About 10,000 Series A were sold at 100¼. There was a reaction in National Bank Shares and prices rose from 124½ to 125½, but the market could not be maintained and prices relapsed to 125; very few shares were sold, no buyers and no sellers.

Discounts rule pretty much the same at 7½ per cent per annum for paper, and 6½ to 7 o/o for gold.

We take the following from the *Times* of the 1st February:—

"Our Paris correspondent telegraphs that there was a revival of apprehension to-day, concerning the settlement about to begin. The chief cause of alarm was the situation of the outside market, one member of which, M John Abraham, as announced yesterday, has already failed. No serious measures seem to have been taken by the Paris banks and bankers, as in the case of the official brokers, to give assistance to some 60 or 70 members of the outside market whose position is believed to be precarious. Heavy sales were made to-day, which were reported to proceed from several of these houses, and these produced a considerable fall almost along the whole line. As regards options, of course they were nearly all abandoned. Representatives of the brokers of Lyons are said to have arrived in Paris for the purpose of making a last effort to obtain the assistance necessary for saving them from insolvency. According to the 'Cote Européenne', the quantity of Napoleons which since the beginning of the present month has passed from the coffers of the Bank of England into those of the Bank of France, is not far from 70 to 80 million francs. Since Thursday last, it states, the stock of metal at the latter institution has increased by about 40 million francs.

As Ostrich Farming promises to become a large and lucrative business in the River Plate, we have pleasure in publishing the latest price list received of the monthly auction of Ostrich feathers held in London on 1st January last. We may add that one Ostrich produces annually two pounds weight of feathers, composed as follows:—1 lb of inferior to best whites, ½ lb boos, and ½ lb blacks and drabs.

"Ostrich Feathers.

"January Sales—

"These sales were very large, nearly the largest, indeed, upon record, but the attendance was very good, and the competition, if not quite uniform was, on the whole, well sustained. The bulk of the Feathers was placed.

"White Feathers declined in value to a limited extent—say 5 per cent., inferior [3rd quality] even more. Femina were without change, except for very inferior, which were rather cheaper. Spadones were dearer, especially white, which advanced 10s. to 20s. per lb. Of Boos white remained at the previous value femina and drab were firm. Long and medium black unaltered; drab very firm; medium and short black and drab of the best quality were, if anything, higher, but the lower qualities were very cheap and bad almost unsaleable.

"The Auctions comprised 575 cases of Cape, value about £114,000, of which 549 cases were sold, realising £107,500, and 44 cases Egyptian, of which 8 cases sold, value about £1,100.

The Karo has arrived in Rosario with 1,700 tons of railway material, sent by Mr Paz, the National Commissioner in Europe. The Fifeshire is also expected this month with a cargo of rails.

The Ville de San Nicolas left Rosario with a full cargo of minerals and produce.

The Chascomus fair has been a great success; several fine animals from the estancias of Don Ricardo Newton and J N Fernandez were sold at very high prices. The sales amounted to 400,000 m/c. The next fair will take place on the 1st Sept. proximo.

The Bahia Blanca left yesterday Chubut with the employees of the new maritime station of the Golfo Nuevo.

The following sales of real estate were registered yesterday in the National escribanias:
Calle Piedras No. 192 for 20,000 pats.
Calle Maipu No. 328 for 7,800 pats.
Calle Cuyo No. 648 for 6,400 pats.
Calle Belgrano No. 560 for 70,000 m/c. Resold for 132,000 m/c.
Calle Bolivar Nos. 418-420 for 5,290 pats.
Calle Rivadavia Nos. 180-188, 15½x60, for 70,000 pats.

Cordoba, 5 kilometres front by two leagues deep, for 4,000 pats.

To-morrow some millions of the Empresti to Popular will be destroyed in the Bank; the President of the Public Credit Office and several other gentlemen will witness the imperial spectacle.

The following figures of expenses of the Exhibition will interest our readers:—

Cost of building, &c.....	$ 6,500,000
Rivadavia pavement	4,000,000
Brazilian, Uruguayan and Chilian section	3,000,000
French, German, English, &c., &c. section	2,000,000
6,000 private exhibitors	2,500,000
	$18,000,000

The paving of Calle Rivadavia has, thus, cost the Municipality nearly as much as the Exhibition building is worth; but the street has derived immense benefits, and property has risen very much in value along this long neglected thoroughfare. The total expense after all of the Club Industrial and of the exhibitors is small.

Private advices from the Interior state that the mining industry is raising its head. Several valuable veins of ore have been discovered in La Rioja, and the Central Argentine Railway took to Rosario during last month 2,597 cases of minerals, 398 bars of copper, and 1,100 bars of tin.

During Dr Llambi Campbell's absence Mr J Fernandez will act as President of the Mortgage Bank.

The firm of Five-Lilles will exhibit in the Exhibition some very fine sugar machinery. All the machines will be fixed in a few days. The Five-Lilles is well known both in Europe and abroad.

The Villarino arrived in Patagones on Sunday, where she will remain until Tuesday; we may expect her back in B. Aires on the 15th or 16th inst., if the Rio Negro bar is not very rough.

The Juries of the Continental Exhibition will be probably named next week. The trust is a very delicate one and the authorities must be very careful to select the right men in the right place.

It appears that the drought is doing much damage to the sugar plantations of Santiago del Estero. Rain is very much wanted in nearly all the provinces of the Interior.

The cultivation of tabacco is spreading rapidly in Corrientes. Tabacco from Paraguay, Tucuman and Corrientes would be palatable if more care was taken in the preparation of the leaf. As it is, few people can manage to smoke any cigar made in the River Plate, Talking of Paraguay, it appears the horticultural aspect of the section in the Continental Exhibition has been changed. The locale will be covered with Paraguayan flags, which will produce a much better effect than the former frescoes of tropical vegetation.

Salta will send samples of coffee to the exhibition; on one establishment of that Province there are 200,000 good plants, giving on an average 4,000 arrs. of coffee per annum. Two years hence it is expected that this coffee establishment will produce from eight to ten thousand arrobas. Coffee from Salta is a luxury and in much favor, but there is very little of the grain in Buenos Aires. It tastes like the Yungas.

The Captain of the Port has adopted a new signal for suspending the sailing of mail-steamers, it consists of a white flag, with a blue globe in the centre; $50 fine is attached to the unobservance of the signal.

The affable purser of the R.M.S. Avon has sent us the following:—

B. Aires, March 7th, 1882

To the Editor of the *Buenos Aires Standard*,

Dear Sir,

I beg to report our arrival here this morning at 6 a.m., having left Montevideo last night at 8 p.m.

Our dates are as follows:—

They are superb.
Basis of sale $100,000m/c per league
Payable at long dates
Mortgage in favor of Mortgage Bank
On Wednesday, March 8th, at 3 p.m., at our mart, San Martin 51, we shall auction the above splendid camp by order and for account of its proprietors, who are about to liquidate their partnership. It comprises 2½ leagues of land, with permanent water in a lake on the borders of the land, half of which belongs to Sr. Madero.
The richness of the pastures need no comments. Persons in reach of something superior should pay it, avisit. On the adjoining estate of Sir Eduardo Madero; there are 15,000 horned cattle and sheep, &c, and the same can be said by Messrs. Perez, Rondeau, Gazcon, Martin, Moore, Shult.
We remind interested parties of the last sale of Public Lands, lying 18 to 20 leagues farther out, which fetched $270,000 m/c per league. This land appears in the plan under the names of Castilla and Massot, and adjoining Messrs Anacleto Perez, Gregorio Loubet, Eduardo Madero, Francisco Rodeaun, and Señora Barbarita Alvarez.
Terms of Payment
DON'T FORGET—The buyer may also take out the debt owing to the Mortgage Bank $fts. 8,000, of serie E. This would make the business easy, as the Bank could be paid off very gradually.

AT OUR MART
51—San Martin—51
We will sell to the highest bidder over and above the stipulated basis, for cash, 8¾ league of splendid camp, in the department of San Justo, (Province of Cordoba). Advices we have received about the above camp are most flattering—so let those who wish to secure good land cheap, look alive.
The shape of the lot, its rich pastures, and the liberal conditions on which it is offered for sale (in one or more lots), place it within reach of agriculturists, who require small lots of excellent land.
The low valuation put on this land compared with the prices obtained by the Government, 3,000 pats, is the best recommendation we can offer.
Title deeds faultless.

De tantos campos que se han ofrecido y se ofrecen todos los dias en venta, pocos pueden ponerse en parangon con este lote y especialmente con los que acaban de venderse en la Seccion 10 a razon de 101 ps. la hectarea, o sean 271,000 ps legua cuadrada.
El campo que ofrecemos en venta esta mensurado y amojonado por el Sr D Angel Silva, y sus pastos son abundantes y riquisimos, comprendiendo en gran parte de gramilla, trebol, alfilerillo, cebadilla, cola de zorra, etc. garantiendo que no hay medanos en toda la fraccion.
Esta a igual distancia de Buenos Aires que los campos del Venado Tuerto que se venden hoy de $00 a 400,000 ps. legua.
Pocas veces se venden campos en iguales condiciones, y se vende unicamente por ausentarse uno de los socios para Europe, maxime que hay quien lo arriende hoy en 12,000 pesos (doce mil) la legua.
Para demostrar lo infimo de la base que se ha fijado para la venta, queremos recordar algunas ventas, efectuadas en estos ultimos tiempos, algunas de ellas en estos dias.
Al señor Cadmus en la Seccion XVII por 130,000 ps legua, comprada para una compañia belga que esta ya mandando los materiales para alambrar el campo.
Las 19 leguas vendidas por el Dr. D. Marcelino Ugarte al nuevo Banco Ingles a razon de 160,000 ps al contado la legua, y se poblaran a no dudarlo en poco tiempo.
Esta fraccion que anchada queda a muy poca distancia de nuestro lote.
Los campos que acaban de venderse en la seccion 10 y cuyo termino medio da mas de 245,000 ps por legua, campos infinitamente inferiores, y para que no se crea que es charla nuestra los vendedores dan al comprador, por medio de un documento, un plazo de seis meses para que puedan cerciorarse de la verdad de lo que decimos y de que si no son mejores estas tres leguas que cualquier fraccion igual de las 85 leguas de esa seccion 10, se anulara la venta y se devolvera el dinero pagado.
Muchisimos son los pobladores que hay por aquellos parages, cerca de alli la fraccion marcada en el Plano con Firondo y Escalante esta poblada por dos vascos, a quienes se lo vendieron aquellos.
Sabido es que Lincoln es el partido que se ha poblado mas rapidamente, y lo prueban los grandes establecimientos de los señores Duggan, Ostendorp, Samsen, Ricketts, Sanford, Brown, Carabasses, Lopez, Martinez de Hoz y muchos otros vecinos pobladores, no especuladores, y que no venderian sus campos por ningun precio.
La seccion 17 que hace tan poco que fue vendida por el Goiberno de la Provincia, esta llena de nuevas estancias como la de los Sres. Romero, Allan, Wilson, Cabral y otros.
En cuanto a pronta comunicacion con los grandes centros, tenemos varias lineas de ferro-carriles que no son proyectos, sino que estan ya, puede decirse, en via de construccion, y antes de dos años tendremos el ferro-carril Trasandino, que pasara cerca de este campo, y el otro que ira a Tranquelaaquen.
Pocos son los campos que le quedan para vender al Gobierno de la Provincia, y pueden estar seguros los compradores que todos ellos se venderan en las mismas condiciones de la seccion 10 y del campo vendido el 7 del corriente en el partido Nueve de Julio, cuya base era de $70,000 legua y fue vendido en 94500 pesos legua al Sr Unzue.
Queremos hacer presente tambien que la gran area vendida por el Sr Don Jose G Lezama al Sr Don Eduardo Casey, queda diez leguas mas afuera que este ofrecido en venta.
Con todos estos datos y las garantias de los vendedores respecto a la bondad del campo, este vale a no dudarlo $120 la hectarea !!! y con los 8 años de plazo sin interes vale 350 a 400,000 pesos la legua.
Los compradores firmaran pagares hipotecarios por los ocho plazos, entregando la octava parte al contado.
Prevenimos a los interesados que desde hoy tendremos a su disposicion un plano indicando la posicion exacta del campo, para que puedan mandar revisarlo con tiempo.

Num 94 zebruno hijo de Presidente y yegua criolla, nacio Noviembre 1879.
Num 95 gateado hijo de Municipal, nacio Noviembre 1879.
'Bayard' y 'Municipal' de sangre puro fueron introducidos al pais por la compañia, comprados en el castillo 'Mille Secousse' cerca de Burdeos, *Presidente* tambien puro nacio en el establecimiento 'Matanzas' arriba mencionado.
Cremos inutil entrar en mayores detalles sobre la cria Percheron pues es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentra en ninguno otra.
Tenemos una prueba de ellos en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del Sr. Cambaceres, unico criador de la raza que ha espedido hasta ahora sus productos al publico.
La Compañia del Tramway hasta la fecha habia unicamente espuesto sus crias en varias esposiciones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que lo hace, tienen los criadores una brillante ocasion para hacerse de animales de primer orden.
Los caballos y yeguas pueden verse en las caballerizas de la compañia en las 5 Esquinas y dos dias antes del remate en nuestra casa Alsina 78.

BUENOS AIRES GREAT SOUTHERN R.R.

An extraordinary general meeting was held at the City Terminus Hotel, Cannon-street, E.C., on Thursday, January 26th.

Mr Frank Parish in the chair.

The Secretary (Mr C O Barker) read the notice convening the meeting and the minutes of the general meeting held on Oct. 20th, 1881.

The Chairman—Gentlemen, the occasion of our meeting to-day is an extraordinary and important one—one which involves certainly a very important issue in the history of this Company. You are aware, gentlemen, by the report, which has been circulated among you, that I have just returned from B. Aires in company with the secretary, where we have been on a special mission in connection with the interests of the Company. Our mission, I am happy to say, has been attended with most important and, I hope you will admit, satisfactory results—(Hear, hear). You have before you, gentlemen, a history in detail of nearly all the circumstances of the object of our mission, and the result of it, and the work which we have gone through, and that will convey to you a pretty accurate idea of all the circumstances of the case; in addition to which, I think, entrusted as I have been with the confidence of the Board in this matter, it is only right that I should discharge my duty by giving you as much personal explanation as possible. Before entering upon the special part of my statement I think it will afford you all some satisfaction to know what the actual state of our business is. Although we are not actually in possession of the accounts of the last year in detail, still we have telegraphic information which enables us to state to you that our business is advancing, and that during the last year we have made sufficient to pay you I think the same rate of dividend, and with a balance also, which, if I am not very much mistaken, will enable us to add the same bonus that you received last year—(Hear, hear). This no doubt will be a satisfactory piece of information to you. I do not use it, gentlemen, as a sort of 'ad captandum' argument to lead you on to further extensions, but as illustrating our case fairly, as it bears upon this question of extensions very materially. You know that we have carried the last year's traffic over 80 miles of new line, this being the first year of our Ayacucho extension, and when you consider that the traffic made is legitimate commercial traffic, not including any Company's materials, as was the case in the previous year when we received 10 per cent, it ought to be all the more satisfactory to you. It will show you that our policy has been a judicious one, and that our extensions have been made with not too advanced ideas, as a matter of fact we have never been in advance of the country; in proportion as we have gone on extending the line so we have on no occasion reduced your receipts, but have improved the property. I think this is a satisfactory statement to make to you at the commencement, and to point out to you that the gentlemen who have directed your business hitherto are the same who—and I think you may consider them commercial-minded men—are now recommending you this further extension. There were special reasons, gentlemen, which influenced the Board in sending the secretary and myself to Buenos Ayres. It has been the practice of this Board—and I think it is one that you will acknowledge is a wise one, which should be adopted by all companies representing interests abroad—to keep ourselves perfectly acquinted with our property by visits from time to time to the place; and although it is possible for many of us who have a connection in the country, and who are in communication with the people out there, to derive pretty accurate information of the state of things, still it is wise and useful that some members of the Board should occasionally visit the country and the railway, and it always is attended with some benefit—(hear, hear);—in fact, it is only by personal knowledge, and, you may say, contact with things, that you can fully ascertain and appreciate the movement that is going on, especially in a young country. There were also other reasons which induced the Board to adopt the move, which were that for some years previously we had been working on rather a tight system; the monetary depression which had taken place had affected the currency, and obliged us to raise the rates, which, much against the views of some of our Proprietors, we were obliged to continue. No doubt it was a false basis to go upon permanently, but it was absolutely necessary at the time. The same circumstances prevented our developing our property, or making such improvements as we perhaps might have done otherwise. That position of things has improved and indeed disappeared; the monetary system has recovered; the paper money had almost risen to par when I arrived in Buenos Ayres; and you will be glad, no doubt, to see that it has now risen to par, which is a very great boon to us. These were the reasons which induced the Board to think that the time had come for a member of the Board to visit Buenos Ayres in order to see in what manner we could improve the property. The want of some of these improvements, which came upon us rather rapidly, had occasioned some dissatisfaction among the public in Buenos Aires, and rumours had reached us of the unpopularity of the Company, which coupled with some new views of the Government as to State railways and expropriation, was a very strong reason why some member of the Board, with authority, should go out. Under those circumstances I was only too glad to undertake the duty, and assume all the responsibilities connected with the trust placed in me. On arrival at Buenos Aires I found after eight or nine years' absence, that things had changed very much. The country had advanced considerably, the country districts particularly were extending, and the general condition of things had altered very much for the better. There were signs of increased wealth, and the people had enlarged their views considerably. The town of Buenos Aires is being rapidly improved and embellished and all these things in some way influence the position of railways. No doubt what was good for them yesterday is now no longer sufficient, nor does it satisfy all the public wants to-day, and it appeared to me therefore that the time had arrived for taking a new departure. With these views, gentlemen, I entered upon the matter and my first duty naturally was to inquire into the condition of our property, and ascertain whether there really was any sufficient ground for the public complaints, and with the view also of placing our property in such a condition as to meet all the new demands made upon us. The consideration of this matter was entrusted to our secretary, and the valuable assistance I received from that gentleman I may perhaps be allowed to comment on here. Through him and the general manager (Mr Cooper) and our consulting engineer (Mr Coghlan) the most exhaustive examination was made into the property itself and the general management. I do not think anything was left undone that could be done to ascertain what the real state of our property was, and what ought to be done to improve it. A report of this was presented to me, and I had no difficulty whatever, seeing facts before my eyes, in accepting it and recommending it to the Board. That report involves some large improvements which are necessary irrespective of all other causes for the general benefit of our property, embracing the enlargement of stations and a variety of things which you will find detailed in one of the special reports. I need scarcely allude to them separately as you have them all detailed there; therefore I will proceed with my statement. The approval of these improvements and a general reduction in rates and fares, arranged agreeably to the wish of the Board before I left England, was made public, and as much use made of them as possible in order to influence public opinion, and I think that, coming as they did from an authoritative source, they had considerable influence on the public in destroying a strong feeling that existed, that our Company was working on a selfish policy. Gentlemen, there existed still the difficulty of the policy of the government in respect of expropriation. As you will all perceive, under such circumstances, with the insecurity of our property, it would have been impossible until we could remove it either to improve or advance the Railway. It was an obstacle that stood in our way at every step. I need not argue how far it might have been practicable for the government to carry it out, but anyhow, the mere existence of such a right was an insecurity which affected the value of our property. Our duty then was to see in what we could meet this difficulty. It appears to me, and in fact it did not require any personal visit to the district to find out, that the time had arrived when the railway might be extended to Bahia Blanca. During the last few years there had been a great improvement in the country, and farming operations had extended, a large number of settlers had gone down there who had purchased Government land, and there was every prospect of the whole of that zone of territory being peopled. The port of Bahia Blanca has grown in importance, judging from the returns of the last six months which I obtained from the Custom House before I left, and there is evidence of a very large immigration of settlers spreading over that part of the country. Under such circumstances it seemed to me that it would be a very favourable opportunity to treat with the Government for obtaining the right of extension, and at the same time obtaining from them an exemption from expropriation as a security to the property. On that basis I approached the Government, representing the desire of the Company to improve their property and to meet public wants, and offering also to continue the railway, serving the country's interests in that manner, provided the security was given to us that we wished. After some time—perhaps the delay was occasioned by first of all the attractions in a political sense of having a State railway, because the idea of expropriation had become popularised amung political people, and I think the Government were influenced in some measure by offers made by financial agents in London and elsewhere to assist them in the matter—it was only natural that the Government, thinking they had the means at their disposal, felt that they would like to possess this great foreign railway. However the governor himself, a man certainly of too great intelligence not to see the extraordinary advantages of this offer on my part, which certainly offered immeasurably greater advantages than anything connected with expropriation—which after all, even if practicable, was an extremely dangerous course to pursue, and one that, however popular for the moment, would eventually have brought discredit upon the country—he was too wise and too intelligent not see that, and after some little delay he entered into negotiations with me, and I am glad to say, after some discussion upon all points in question, we arrived at an agreement, the terms of which you have before you, namely, that the Company should extend their railway to Bahia Blanca, make a short extension on the other branch from Ayacucho to Tandil, which I need not say is one which, if the Governor had not included it. I should have recommended you very strongly indeed for purposes connected with our interest, and as a great improvement to our existing line. The other condition was the exemption from expropriation for a term of 20 years, which is until the expiry of the term of our concession, and a maximum tariff to be established as agreed upon between the Government and the Company. That tariff as agreed upon at the time was considered satisfactory to the company, and is I may say, not one of the least satisfactory features of our arrangement. You must not look upon it as an interference with our business contrary to the condition of the original contract for it has been established on a fair basis and so removes one of the causes of unpopularity which affected us. These terms, gentlemen, are satisfactory as I could have wished, or have expected to obtain; they open out to you a very large field for future traffic, they secure the Company under all conditions—I may say almost in perpetuity, and they give you the advantage also in the fixed tariff of freedom to work during the time of the contract on a gold basis which we consider highly satisfactory. I do not think we could have desired more, and I am happy to find that the whole of the scheme has been adopted and approved by our Board. As regards the character of the country of this district I might give you some illustrations in order to show you that we have come to no hasty conclusion, but that we have good information on the spot of the probable results which might come from the line. I hold in my hand one or two letters which it may be useful to read. You are aware that the Secretary, our Engineer and Manager, have gone over the line of country, and they have seen with their own eyes the facts which are given in another form. I will now ask the Secretary to read the letters I have received on this subject.

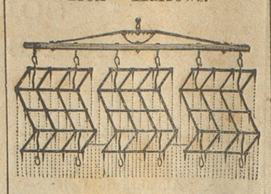
HOWARD'S GELEBRATED HARROWS

Howard's Iron Harrows.

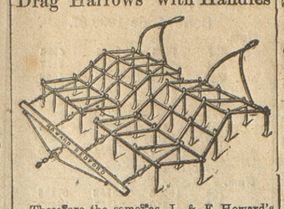


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial-made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 2½ cwt....
No. 12, for two animals, 9½ feet wide, weight 1¾ cwt.....
No. 14, for one or two animals, 8½ feet wide, weight 1¼ cwt....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clear them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 3½ cwt.....
H 16, a pair of 3-beam Harrows, with whippletree, 7½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 6½ feet wide weight 3 cwt.....
H 17, a pair of 3-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 18, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 2½ cwt.....

Howard's Self-Lifting Wheel Harrows

These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 5½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 25 tines 7½ ft. wide, weight 5½ cwt..

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonehurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender ye require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.
